## ASSIGNMENT

WHEREAS, Intergraph Corporation, a Delaware corporation (the "Assignor") and Silicon Graphics, Inc. (hereinafter referred to as the "Company"), also a Delaware corporation, have entered into an Asset Purchase Agreement and an Intellectual Property Agreement, both dated \_\_\_\_\_ (together referred to herein as "The Purchase Agreement"), providing for, among other things, the sale by Assignor of specified Assets to Company; and

WHEREAS, in conjunction with such sale, Assignor desires to sell, convey, assign, transfer and deliver to Company all of Assignor's rights, title and interest in and to the Assigned Items (as defined below) which form part of the Assets.

NOW, THEREFORE, in consideration of One Dollar (US\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns and agrees to assign to Company, without further consideration, all right, title and interest of every kind and nature throughout the world that may now or hereafter exist in and to the "Assigned Items" (as defined below); and all rights to sue and collect damages for past or future infringement or other violation of any rights in the Assigned Items. For purposes of this Assignment, "Assigned Items" means any or all of the patents, patent applications, and proposed patent applications listed in Attachment A attached hereto, all patent applications, granted patents and issued patents subsequently derived from the foregoing, and any portion thereof, all foreign counterpart applications and patents corresponding to the foregoing, and all intellectual and proprietary property rights relating to the inventions described and/or claimed in the foregoing patents, patent applications and proposed patent applications, and all documents related to the foregoing including, without limitation, correspondence relating to the foregoing with the U.S. Patent and Trademark Office, European Patent Office and any other patent granting authority.

Assignor represents and warrants that (i) Assignor has full right, power and authority to make the foregoing assignment, (ii) the Assigned Items are being transferred free and clear of any liens, security interests, encumbrances or any other adverse claims, (iii) none of the Assigned Items is subject to or bound by any license or other agreement, and (iv) there is no claim or demand of any person or entity pertaining to, or any governmental action or proceeding that is pending threatened, which challenges the rights of Assignor with respect to or validity of any Assigned Item. At any time at Company's request and at Company's expense, Assignor will execute such written instruments and extend such other cooperation as may be necessary in the opinion of Company to secure, enforce or otherwise protect Company's rights in the Assigned Items.

To the extent, if any, that Assignor retains any right, title, or interest with respect to the Assigned Items, Assignor hereby grants to the Company an exclusive, worldwide, perpetual, irrevocable, paid-up, royalty-free, transferable and sublicensable right and license to reproduce, distribute, perform and display (whether publicly or otherwise), prepare derivative works of and otherwise modify, make, use, sell, import, export, distribute and otherwise exploit all or any portion of the Assigned Items. Assignor further waives any "moral" rights, or other rights with respect to attribution of authorship or integrity of the Assigned Items, that Assignor may have

under any applicable law. Assignor further agrees that it will not (i) at any time, assert claims or commence or continue any legal proceeding against Company with respect to any of the Assigned Items, involving assertions or claims such as invalidity, non-ownership or infringement or any other third party rights, (ii) challenge the use or enjoyment of any of the Assigned Items, and (iii) assist, cooperate with, or the like with any other parties in so claiming or challenging.

This Agreement and all matters relating to this Assignment shall be construed and controlled by the laws of the State of Delaware.

IN WITNESS WHEREOF, ASSIGNOR has caused this instrument to be executed by its authorized officer effective as of the 24 day of February 2000.
